The Honorable Thomas H. Kean
Governor of the State of New Jersey

Honorable Members of the Senate and
Assembly of the State of New Jersey

Dear Governor and Members of the Legislature:

Pursuant to N.J.S.A. 52:17B-5.5, I am submitting the eighteenth annual report on crime in New Jersey. This information is based on crime statistics submitted to the New Jersey Uniform Crime Reporting System by every New Jersey law enforcement agency for the year 1984.

Also included in this publication are 1983 and 1984 statistics collected in conformance with the Prevention of Domestic Violence Act. Gathering the particulars of the domestic violence incident is a necessary step toward combating this serious crime against society.

Effective law enforcement requires accurate crime statistics in order to identify the extent, type and location of criminal activity. Criminal justice administrators and planners have long recognized the Uniform Crime Reporting Program as the vehicle to accomplish this objective.

The success of the Uniform Crime Reporting System during 1984 could not have been realized without the cooperation extended by each of the 585 law enforcement agencies of the state, the New Jersey Chiefs of Police Association and the County Prosecutors Association.

It is in the interest of more effective law enforcement to over 7 million residents of New Jersey that the eighteenth annual report is submitted.

Respectfully,

Irwin I. Kimmelman

IRWIN I. KIMMELMAN
Attorney General

IN MEMORIAM

Members of all Law Enforcement Agencies, and the entire criminal justice community extend their sympathy to the family of the below listed law enforcement officers killed in the line of duty in New Jersey in 1984.

CARLOS M. NEGRON
New Jersey State Police

Enlisted: February 2, 1982 Died: May 7, 1984

WILLIAM L. CARROLL, Jr.
New Jersey State Police

Enlisted: January 26, 1979 Died: July 12, 1984

ANTHONY J. GARAFFA
Irvington Police Department

Enlisted: September 9, 1968 Died: August 9, 1984

DANIEL J. SMITH
Essex County Police Department

Enlisted: January 3, 1983 Died: September 17, 1984

SECTION I

SYNOPSIS
UNIFORM CRIME
REPORTING PROGRAM

THE NEW JERSEY UNIFORM CRIME REPORTING SYSTEM

DEFINITION

The New Jersey Uniform Crime Reporting System is based upon the compilation, classification, and analysis of crime data reported by all New Jersey police agencies in accordance with the regulations prescribed by law.

DEVELOPMENT

The New Jersey Uniform Crime Reporting Law (N.J.S.A. 52:17 B-5.1 et seq) was enacted on May 16, 1966, and became effective January 1, 1967. Responsibility for the establishment, direction, control, and supervision of the Uniform Crime Reporting System was assigned to the State's Attorney General. The Attorney General authorized the New Jersey State Police to collect and collate the crime data received from law enforcement agencies within the state.

At the request of the Attorney General, the New Jersey State Police researched crime systems in operation throughout the nation in order to establish a firm foundation from which to grow. The most logical approach was the paralleling of the federal crime reporting system. There was a distinct need for a compatibility feature that would enhance both the state and federal systems through the data entry at both levels.

This compatibility has, as its nucleus, the standard classification of offenses established by the Federal Bureau of Investigation. Regardless of the label placed on a particular offense in the various states' systems, i.e., felony, misdemeanor, disorderly persons, if the incident meets the federal standard it will be reported as an offense.

The terms "crime" and "offense" are used interchangeably in this publication, and refer to an act committed in violation of a law which is reportable under the guidelines of the Uniform Crime Reporting Program.

The Committee on Uniform Crime Reporting of the New Jersey State Chiefs of Police Association has served the program in an advisory capacity since 1966. The contributions of this committee have proven valuable to the success of the program. This committee works in close harmony with the State Police as a means of improving the quality of reporting through recommended program standards, policies, and procedures.

COLLECTION OF CRIME DATA

As required by statute, all law enforcement agencies in the state submit monthly and annual summary crime reports to the program. During the year 1984, offense and arrest data were received from 482 full-time municipal police departments, twenty-two (22) part-time municipal police departments, and the New Jersey State Police (acting as the reporting agent for the 54 municipalities without local police services).

In addition to the above agencies, arrest data were received from the state's twenty-one (21) prosecutors', sheriffs' departments, four (4) county police departments, and four (4) county park police departments. In order to incorporate all New Jersey law enforcement agencies under the system, the nine (9) other state agencies with law enforcement responsibilities, as well as twelve (12) college campus police departments were incorporated within the program. Collectively, a total of 576 law enforcement agencies submit their reports to the New Jersey State Police.

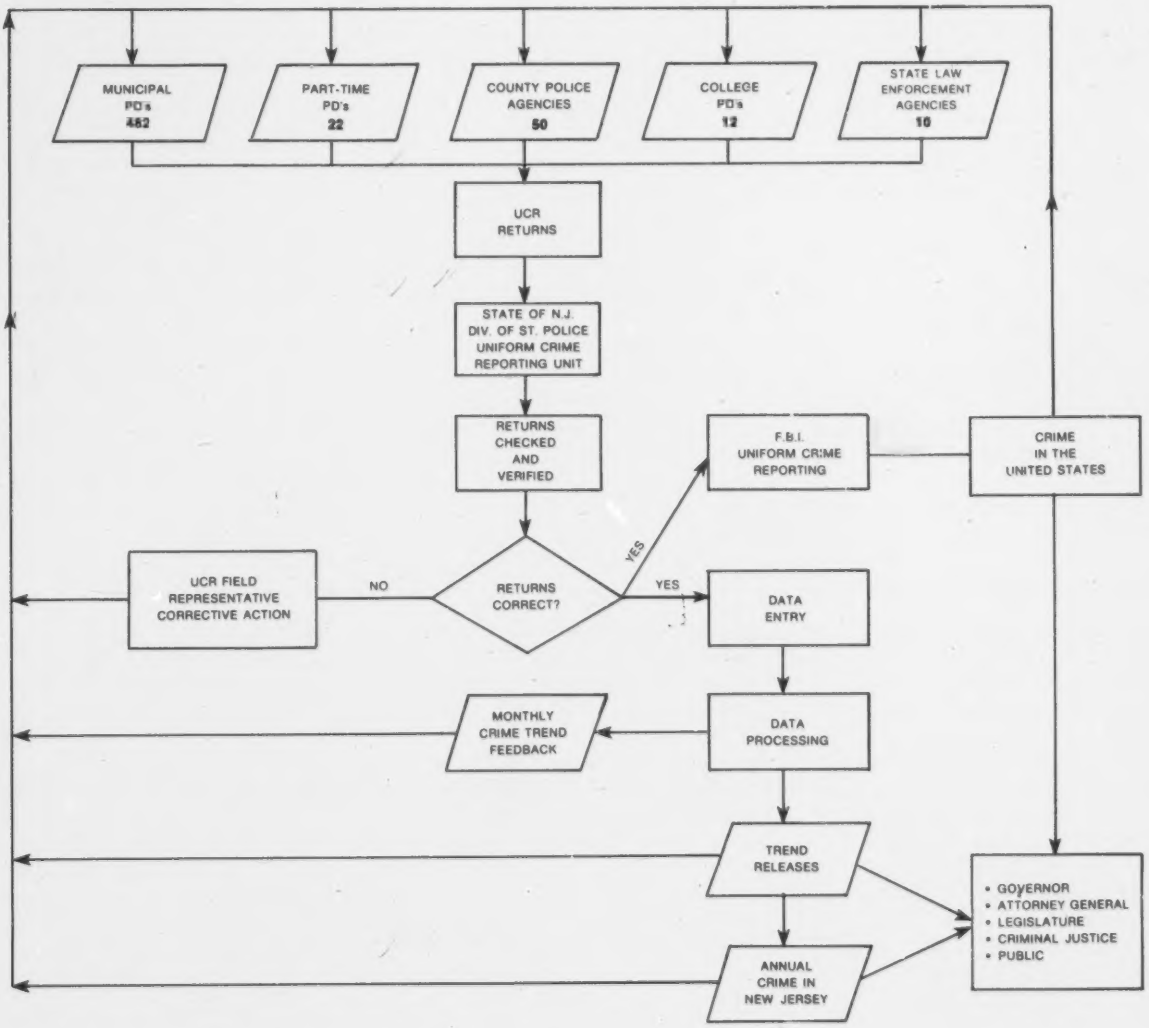
METHOD

The Uniform Crime Reporting Guide, which was revised during 1977, has been distributed to all contributors. It outlines reporting procedures in detail, and is complete to the extent of providing examples and illustrations. Field representatives provide additional instruction and clarification when required.

All reported offenses are related to the municipality in which they occur rather than to the agency which may conduct the investigation. The clearance is credited to the municipality in which the offense occurred. Each contributing agency is responsible for compiling its own reports. Law enforcement agencies report the number of known offenses according to the following categories: Homicide (Murder and Manslaughter), Rape, Robbery, Burglary, Larceny-theft, Motor Vehicle Theft, and Arson. The "Crime in New Jersey," and the Federal Bureau of Investigation's "Crime in the United States" publications, exclude manslaughters, simple assaults, and arsons from the "Index" offenses. These are further referred

to as "violent" and "nonviolent" crimes as graphically illustrated in Section VII under "Municipal and County Offense and Demographic Data," and Section II, "State Summary and Offense Analysis."

All reported offenses are compiled from a record of all criminal complaints received by police from victims or other sources, or discovered by the police during routine operations. Complaints determined to be unfounded are eliminated from this count. Analytical data pertaining to specific crime categories are also reported, i.e., total adult and juvenile arrests made during the month. Police killed or assaulted, and arson data are also collected monthly. Police personnel information is submitted on an annual basis.



VERIFICATION PROCESSES

The uniformity and accuracy of data gathered from 576 contributors must be safeguarded through various ways. Although guidelines and instructions are provided each contributor, they are not the panacea for the accuracy being sought.

The reports received by the Uniform Crime Reporting Unit are recorded and examined for mathematical accuracy and reasonableness of the interpretation of the offense classifications. Improper classifications, changes in reporting procedures, or actual change are identified in this manner. Errors of a minor nature are corrected by direct telephone contact with the contributors, while all other errors are resolved through a personal visit by a field representative to the reporting agency.

Further verification is accomplished through the analysis of statistical data accrued from the reports submitted. Fluctuations in crime rates noted from previous submissions are verified by the field representatives through their municipal counterpart.

FUNCTION

Police executives make use of this data in administrative, planning, and operational determinations for their respective jurisdictions. The State Police Uniform Crime Reporting Unit provides assistance to municipal police agencies through the individual analysis of statistics as they relate to specific crime problems within their jurisdiction. Police executives also use this data for identifying manpower and equipment needs. The Uniform Crime Reporting Program requirements not only have increased police efficiency in reporting and recordkeeping areas, but have helped police in their day to day operations.

Although the data collected on the offenses of manslaughter and simple assault are not presented in the annual report, they are required for the federal system. However, this data is processed and available for special research purposes.

PROFILE OF NEW JERSEY

New Jersey is situated between the major industrial markets of New York and Philadelphia and can be classified as the "Crossroads of the East." The geographic location of the state has been a major factor in its growth and development. The many miles of super-expressway facilities within the state connect New Jersey directly with the neighboring states of New York, Pennsylvania, and Delaware. Additionally, New Jersey as a corridor state, accommodates large volumes of traffic from both the eastern and western part of the United States.

The state is politically comprised of 21 counties which contain 567 incorporated municipalities. Nationally, New Jersey, although 46th in size, ranks ninth in population and first as the most densely populated state in the country. In addition to this density of 996.3 persons per square mile, New Jersey still has many miles of rural areas and sparsely settled communities. The areas of density show a heavy concentration around the major urban centers and those areas most accessible for commuting.

1983 Area In Sq. Miles	1980 Census Population	1983 Provisional Population	1983/1980 Percent Change	1980 Density Per Sq. Mile	1983 Density Per Sq. Mile
7,495.73	7,364,158	7,467,632	+1%	982.4	996.3

STATE, COUNTY AND MUNICIPAL PROFILES

The presentation of state, county and municipal profiles in this section is offered for the purpose of projecting, for the consideration of the reader, a group of recognizable factors which may affect the amount and type of crime that occurs from community to community. Selection of the areas of information to be related to individual municipalities was based on the immediacy and completeness of data available.

Population statistics presented here, and throughout this publication, were obtained from the Department of Labor & Industry, Division of Planning and Research, Office of Demographic and Economic Analysis. The adjusted 1983 census counts of population were used in this publication.

Character of municipalities by urban, suburban and rural classifications, and square miles, were compiled by the Department of Community Affairs, Division of State and Regional Planning, Bureau of Statewide Planning. Following is a list of categories used and a description of each category.

- URBAN CENTER — Densely populated with extensive development.
- URBAN-SUBURBAN — Near an urban center but not as extremely developed and more residential areas.
- URBAN CENTER RURAL — Densely populated core area but surrounded by rural areas.
- SUBURBAN — Predominantly single family residential, within a short distance of an urban area.
- SUBURBAN RURAL — Rapidly developing area but still large tracts of open land available for development.
- RURAL — Scattered small communities and isolated single family dwellings.
- RURAL CENTER — High density core area with surrounding municipalities rural.
- RURAL CENTER-RURAL — Small developed core area surrounded by rural areas.

Certain other socio-economic factors present in varying degrees in all communities may have an influence on resulting crime rates. Obvious difficulties in the identification, documentation and measurement of these factors, however, precluded their application in this report.

Those factors presented were listed to affirm their existence within the county and community and to provide a base for consideration in the evaluation of that community's crime experience.

CRIME FACTORS

In order to provide a meaningful statistical profile of crime within the State of New Jersey, each law enforcement agency must provide the Uniform Crime Reporting Unit with data that depicts specific crimes that are occurring within their jurisdiction. There is a need for compatibility with the National Uniform Crime Reporting System and, therefore, categories of offense classifications used within the state are identical with those of the National System. This results in equitable conclusions being drawn from the data submitted.

Reported Part I offenses and arrests are recorded in the municipality where they occurred, regardless of the outside investigative agency which may investigate, arrest, or otherwise dispose of the case.

The factors which influence crime rates are dependent upon characteristics of the community. When attempting to interpret the crime statistics presented herein, one should be aware of the social structure and factors that lead to or cause criminal behavior.

Crime rates in this publication are based on the stable population of the municipality. Fluctuating seasonal population figures are too inaccurate to be used as a measurement for determining crime rates. Municipalities with high seasonal populations may indicate a higher crime rate per one thousand than may be normal for a municipality their size. This would also be indicated in municipalities that experience high population increases due to special events or commuters.

Set forth below are some of the factors which, by type and volume, will affect the crime that occurs from place to place:

- Density and size of the community population and the metropolitan areas of which it is a part.
- Composition of the population with reference particularly to age, sex, and race.
- Economic status, including job availability, and mores of the population.
- Relative stability of population, including commuter, seasonal, and other transient types.
- Climate, including seasonal weather conditions.
- Cultural conditions, such as educational, recreational, and religious characteristics.
- Effective strength of law enforcement agencies
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational.)
- Crime reporting practices of the general citizenry.
- Attitudes of the public toward crime reporting.
- The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.
- Cooperation of adjoining and overlapping police agencies.

THE POLICE POINT OF VIEW

The New Jersey State Police Uniform Crime Reporting Unit surveyed various police agencies of the state, attempting to ascertain their opinion concerning factors contributing to the increase or decrease of specific crimes in their municipality. One of the goals of the Uniform Crime Reporting Unit is to assist police in reducing crime by first identifying its extent, type and location. The following viewpoints are offered with the expectation of reaching this goal.

ROBBERY

Decreases:

- More stringent sentencing requirements under the State Criminal Code.
- Increased communications technology has led to better communication and increased exchanges of information between police departments.
- Highly visible foot patrols being deployed in commercial areas and densely populated residential areas.
- Use of Anti-crime Units in high robbery areas.

Increases:

- Resort areas have shown an increasing seasonal population.
- Our highly mobile society provides easy access to areas which were previously difficult to reach.

BURGLARY

Decreases:

- Better depolyment of police manpower, such as highly visible foot patrols in high density crime areas, and increased patrols during probable times and at probable locations of burglaries.
- More stringent sentencing requirements under the State's Criminal Code has been a deterrent.
- Crime Prevention Programs are being stressed in many communities and citizens have been taking a more active part by reporting suspicious persons or circumstances.

Increases:

- Extreme increases in population in certain areas has led to new housing in suburban and rural areas.
- Husband and wife are both working; leaving homes frequently unoccupied for long periods of time.

LARCENY

Decreases:

- Public awareness programs contribute to the decrease in thefts from parked vehicles.
- Thefts of bicycles have decreased as a result of Safety and Security Programs implemented by police in various schools; this includes the registration and marking of bicycles with special numbers.
- Improved or additional lighting deter criminal acts from occurring in parking areas.
- "Safe Streets" Programs and Anti-crime Units have been established in many municipalities.

Increases:

- Shoplifting is a theft that police have little or no control over. Store security forces are under the control of the store administration, and their policies vary from strict enforcement, arrest and prosecution, to only a warning. Policy change has been directed toward prosecuting the offenders rather than warning them, causing to some extent an increase in the number of shoplifting offenses reported to police.
- Certain types of property such as tape decks and radios are popular and present resale opportunities.

MOTOR VEHICLE THEFT

Decreases:

- Stronger sentencing of career criminals has been effective.
- Modern ignition systems and anti-theft devices act as a deterrent.
- Better lighting in parking lots has helped decrease motor vehicle thefts.

Increases:

- The tremendous replacement cost of auto parts has contributed significantly to the increase in motor vehicle thefts for the purpose of auto parts resale.

SECTION II

STATE SUMMARY AND OFFENSE ANALYSIS

- MURDER
- RAPE
- ROBBERY
- AGGRAVATED ASSAULT
- BURGLARY
- LARCENY-THEFT

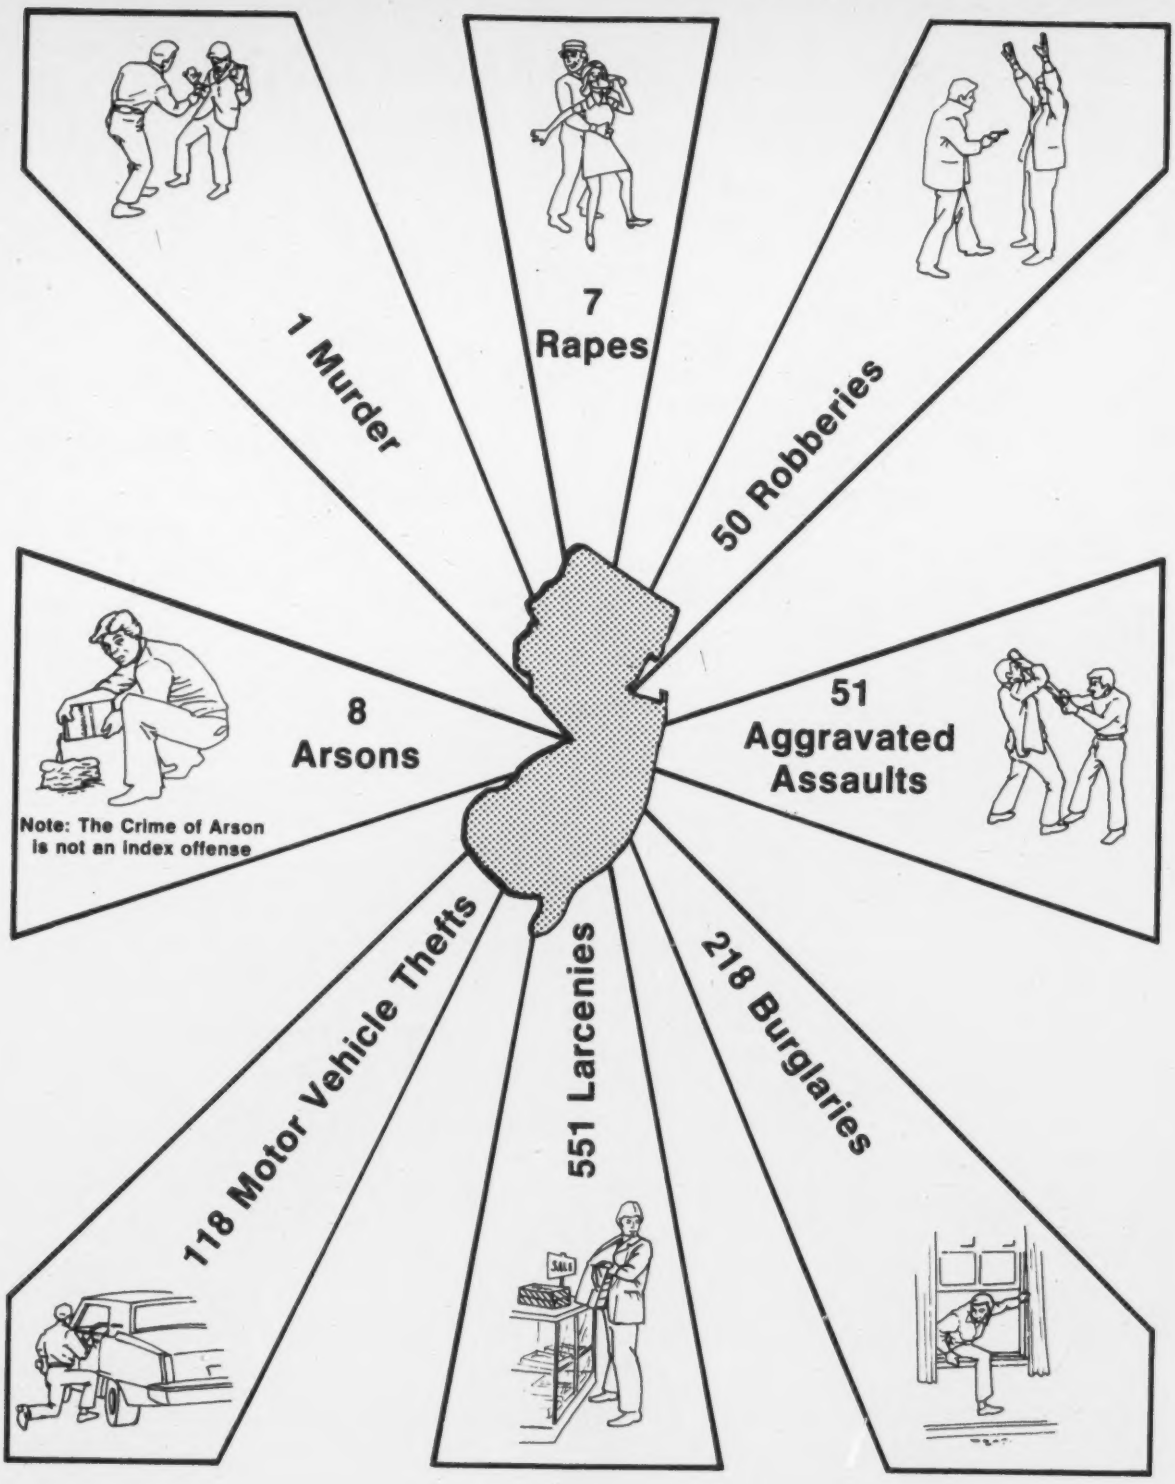
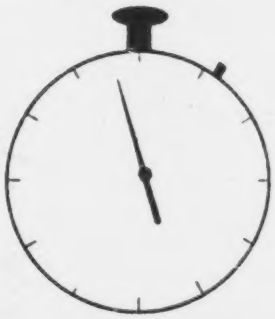
- ARSON

24 Hour Crime Cycle in New Jersey—1984



NEW JERSEY CRIME CLOCK
1984



CRIME INDEX OFFENSE
1 every minute and 27 seconds

VIOLENT CRIME
1 every 13 minutes

- **MURDER**
  1 every 22 hours
- **RAPE**
  1 every 4 hours
- **ROBBERY**
  1 every 29 minutes
- **AGGRAVATED ASSAULT**
  1 every 28 minutes

NON-VIOLENT CRIME
1 every minute and 37 seconds

- **BURGLARY**
  1 every 7 minutes
- **LARCENY-THEFT**
  1 every 3 minutes
- **MOTOR VEHICLE THEFT**
  1 every 12 minutes

The Crime Clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the index offenses. This mode of display should not be taken to imply a regularity in the commission of these offenses; rather, it represents the annual ratio of crime to fixed time intervals.

STATEWIDE CRIME SUMMARY—1984

CRIME INDEX—VOLUME/RATE

- There were 364,398 Index offenses reported in 1984, a 6 percent decrease compared to 1983.
- The crime rate of the state is 48.8 victims for every 1,000 permanent inhabitants, a decrease of 6 percent compared to 1983.

ADDITIONAL ANALYSIS

- August, with 35,837 offenses reported, recorded the highest incidence of Crime Index offenses; while January was the lowest with 25,674 offenses.
- The total value of property stolen amounted to $358.5 million in 1984, a 7 percent increase compared to 1983.
- Value of property recovered was $125.3 million, resulting in a recovery rate of 35 percent.
- Stolen motor vehicles accounted for 53 percent of stolen property, and 89 percent of the recovered property value.

CRIME INDEX ARRESTS/CLEARANCES

- A total of 75,995 persons were arrested for Index offenses, which represents a 5 percent decrease compared to 1983.
- Adult Index arrests decreased 5 percent, while juvenile arrests also decreased 5 percent.
- Crime Index arrests accounted for 21 percent of the total arrests in 1984.
- Males accounted for 81 percent of the Crime Index arrests, and females accounted for 19 percent.
- Fifty-four percent of the Index arrests were white and 46 percent were black.
- Hispanics accounted for 11 percent of the arrests for Index offenses.
- Police cleared 19.7 percent of the Index offenses and juveniles accounted for 28 percent of these clearances.

VIOLENT CRIME SUMMARY

This category consists of the following Index offenses: Murder, Rape, Robbery, Aggravated Assault.

VOLUME/RATE/TREND

- There were 39,615 violent crimes reported in 1984; a 4 percent decrease compared to the 41,303 violent crimes reported in 1983.
- Violent crimes accounted for 11 percent of the total Crime Index.
- The violent crime rate decreased 5 percent to 5.3 victims for every 1,000 permanent inhabitants.

ADDITIONAL ANALYSIS

- The highest number of violent crimes were reported in August with 3,664 offenses while the lowest number was reported in November with 3,104.
- The value of property stolen as a result of violent crime was $9.1 million.

ARRESTS/CLEARANCES

- Arrests for violent crime offenses decreased 1 percent to 18,803.
- Violent crime arrests accounted for 25 percent of the Index arrests and 5 percent of the total arrests during the year.
- Adult arrests for violent crime decreased 2 percent while juvenile violent crime arrests decreased 1 percent compared to 1983.
- Adults accounted for 71 percent of the violent crime arrests, while the remaining 29 percent were juveniles.
- Males were responsible for 90 percent and females for 10 percent of the violent crime arrests.
- Forty-one percent of those arrested were white, 58 percent were black, and less than one half of one percent were other races.
- Hispanics accounted for 12 percent of the arrests.
- Forty-seven percent of all violent crimes were cleared and juveniles accounted for 20 percent of these clearances.

NONVIOLENT CRIME SUMMARY

This category consists of the following Index offenses: Burglary, Larceny-theft, Motor Vehicle Theft.

VOLUME/RATE/TREND

- There were 324,783 nonviolent crimes reported in 1984; a 6 percent decrease compared to the 344,343 reported in 1983.
- Nonviolent crime accounted for 89 percent of the total Crime Index.
- The nonviolent crime rate decreased 6 percent to 43.5 victims per 1,000 inhabitants in 1984.

ADDITIONAL ANALYSIS

- The largest number of nonviolent crimes were reported in August with 32,173 while the lowest number was reported in January with 22,559.
- The total value of property stolen as a result of nonviolent crime amounted to $349.4 million.

ARRESTS/CLEARANCES

- Nonviolent crime arrests decreased 6 percent in 1984 as 57,192 persons were arrested.
- Nonviolent crime arrests accounted for 75 percent of the Index arrests and 16 percent of the total arrests during 1984.
- Juveniles were responsible for 40 percent of the nonviolent crime arrests and adults 60 percent.
- Adult nonviolent crime arrests decreased 6 percent, while juvenile arrests also decreased 6 percent.
- Males represented 78 percent, and females 22 percent of persons arrested for the nonviolent crime.
- Fifty-eight percent of all persons arrested for nonviolent crimes were white, and 42 percent were black.
- Hispanics accounted for 11 percent of the arrests.
- Sixteen percent of all nonviolent crimes reported were cleared in 1984 and juveniles accounted for 30 percent of these clearances.

TOTAL ARREST SUMMARY

- There were 358,944 persons arrested in 1984 which represents a 1 percent decrease compared to 1983.
- The arrest rate for 1984 decreased 1 percent to 48.1 persons arrested per every 1,000 inhabitants.
- Adults arrests remained relatively unchanged and juvenile arrests decreased 2 percent to 96,780 in 1984.
- Adults accounted for 73 percent and juveniles 27 percent of the total state arrests.
- Persons under 21 years of age accounted for 42 percent of all arrests.
- Males accounted for 83 percent and females 17 percent of the total persons arrested during the year.
- Sixty-seven percent of the total persons arrested in 1984 were white, 32 percent were black, and less than one half of one percent were other races.
- Hispanics accounted for 9 percent of the arrests.

POLICE OFFICERS KILLED AND ASSAULTED SUMMARY

- There were three police officers feloniously killed in the line of duty in 1984.
- There were 4,381 police officers assaulted during the performance of duty in 1984.

CRIME IN NEW JERSEY, UNITED STATES AND THE NORTHEAST REGION

- The Crime Index in New Jersey decreased 6 percent, while the Northeastern States also decreased 6 percent and the United States decreased 3 percent.
- Violent crime in New Jersey decreased 4 percent, while the Northeastern States decreased 3 percent and the United States recorded no change.
- Nonviolent crime in New Jersey decreased 6 percent, while the Northeastern States also decreased 6 percent and the United States decreased 3 percent.

MURDER

DEFINITION

Murder is defined as the unlawful killing of a human being with malice aforethought. Any death due to a fight, argument, quarrel, assault, or commission of a crime is included. This Index offense is counted by police on the basis of their investigation without regard to findings of a court, jury or the decision of a prosecutor. Attempts to kill and assaults to kill are scored as aggravated assaults and not as murder. Suicides, accidental deaths, negligent manslaughters, and justifiable homicides are not counted, nor reflected in the murder classification.

VOLUME/RATE/TREND

- There were 402 murders reported to law enforcement agencies of the state in 1984, a 1 percent increase compared to the 398 murders reported in 1983.
- Murders accounted for one-tenth of one percent of the reported Index offenses, and 1 percent of the violent crime.
- The murder rate remained the same at .1 victims per 1,000 inhabitants.

ADDITIONAL ANALYSIS

- The age group of 20-29 accounted for 34 percent of all murder victims.
- Firearms were used in 43 percent of the murders where the weapon is known. Knife or cutting instruments accounted for 26 percent, while physical force accounted for 6 percent.
- In murders where the relationship of the victim and offender is known, 56 percent were friends or acquaintances, 24 percent were relatives, and 20 percent were strangers.
- Felony murders accounted for 35 percent of the known murder circumstances. Robbery was the motive in 45 percent of the 100 felony murders.
- Friday was the highest day of the week for reported murders with 82, while Wednesday and Thursday were the lowest with 41 each.
- August recorded the highest number of murders, with 40, while April was the lowest with 26.
- Forty-three percent of the murders occurred in private residences.
- The total value of property stolen as a result of murder amounted to $11,199.

ARRESTS/CLEARANCES

- A total of 331 persons were arrested for murder in 1984, a 9 percent decrease compared to 1983.
- Adult murder arrests decreased 6 percent (from 324 to 303) and juvenile arrests decreased 32 percent (from 41 to 28).
- Fifty-eight percent of persons arrested for murder were black, and 42 percent were white.
- Hispanics accounted for 14 percent of the arrests.
- Males accounted for 93 percent and females 7 percent of those arrested for murder.
- Seventy-five percent of the murders were cleared in 1984 (300 out of 402). Juveniles accounted for 7 percent of those cases cleared.

RAPE

Definition

Rape is defined as the carnal knowledge of a female forcibly and against her will. All assaults and attempts to rape are counted, but carnal abuse, rape without force (statutory rape) and other sex offenses are not included.

VOLUME/RATE/TREND

- There were 2,439 reported rapes in 1984, an increase of 8 percent compared to the 2,268 in 1983.
- Rape accounted for seven-tenths of one percent of the total Crime Index and 6 percent of all violent crimes.
- For every 1,000 persons in the state, there were .3 rape victims. When calculated on the estimated female population, the rape rate increases to .6 per 1,000 females.

ADDITIONAL ANALYSIS

- Seventy-seven percent of the rapes were forcible, the remaining 23 percent were attempts to rape.
- The total value of property stolen as a result of rape, amounted to $47,456.

ARRESTS/CLEARANCES

- A total of 1,379 persons were arrested during 1984, a 6 percent increase compared to 1983.
- Adult rape arrests increased 6 percent, while juvenile arrests increased 4 percent compared to 1983.
- Fifty-nine percent of the arrested perpetrators were black, and 41 percent were white.
- Hispanics accounted for 11 percent of the arrests.
- Sixty-four percent of all persons arrested for rape were under the age of 24.
- Fifty-four percent of all rape cases were solved during 1984. Juveniles accounted for 15 percent of those cases cleared.

ROBBERY

Definition

Robbery is defined as the felonious and forcible taking of the property of another, against his will, by violence or by putting him in fear. The element of personal confrontation is always present in this crime. Under the program, all assaults or attempts to rob are included.

VOLUME/RATE/TREND

- There were 18,217 robbery offenses in 1984, a 9 percent decrease compared to 20,091 in 1983.
- Robbery accounted for 5 percent of the total Crime Index and 46 percent of all violent crime.
- The robbery rate was 2.4 victims per 1,000 population.

ADDITIONAL ANALYSIS

- Highway robberies accounted for 76 percent of all reported robberies.
- Residence robberies decreased 10 percent in 1984 and accounted for 8 percent of all robberies in the state.
- Total value of property stolen during robberies amounted to $9,049,995.

ARRESTS/CLEARANCES

- A total of 6,080 persons were arrested for robbery in 1984, an 8 percent decrease compared to 1983.
- There was an 8 percent decrease in adult robbery arrests, and juvenile arrests decreased 9 percent in 1984.
- Males accounted for 94 percent and females 6 percent of the robbery arrests in 1984.
- Seventy-six percent of all persons arrested for robbery were black, the remaining 24 percent were white.
- Hispanics accounted for 10 percent of the robbery arrests.
- Twenty-six percent of the robbery cases were cleared and juveniles accounted for 33 percent of those clearances.

AGGRAVATED ASSAULT

Definition

Aggravated assault, as defined under the New Jersey Uniform Crime Reporting System, is an attempt or offer, with unlawful force or violence, to do serious physical injury to another. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could result in serious personal injury if the crime was successfully completed.

VOLUME/RATE/TREND

- There were 18,557 aggravated assaults reported during 1984, an increase of less than one-half of one percent compared to 1983.
- Aggravated assaults accounted for 5 percent of the Crime Index and 47 percent of all violent crimes.
- The rate for aggravated assault remained the same at 2.5 victims per 1,000 population.

ADDITIONAL ANALYSIS

- Physical force (i.e. hands, fists, and feet) was used in 32 percent and other dangerous weapons (i.e. clubs, bricks, tire irons, etc.) were used in 30 percent of all reported aggravated assaults.
- Aggravated assaults committed with a gun decreased 1 percent compared to 1983.

ARRESTS/CLEARANCES

- There were 11,013 persons arrested for aggravated assault in 1984, a 2 percent increase compared to 1983.
- There was no significant change in adult arrest, while juvenile arrest increased 10 percent.
- Males accounted for 86 percent and females 14 percent of the aggravated assault arrests.
- Fifty-one percent of the persons arrested for aggravated assault were white, and 49 percent were black.
- Hispanics accounted for 12 percent of the arrests.
- Sixty-six percent of the reported aggravated assaults were cleared; juveniles accounted for 16 percent of these clearances.

BURGLARY

Definition

Under this program, burglary is defined as an unlawful entry or attempted entry of any structure to commit a felony or larceny. Data collection for this offense is further categorized as forcible entry, unlawful entry (where no force is used) and attempted forcible entry.

VOLUME/RATE/TREND

- There were 79,849 burglary offenses reported in 1984, a 14 percent decrease compared to the 92,424 reported in 1984.
- Burglary accounted for 22 percent of the total Crime Index and 25 percent of all nonviolent crime.
- The burglary rate per 1,000 population decreased 14 percent to 10.7 in 1984.

ADDITIONAL ANALYSIS

- During 1984, 72 percent of all burglaries involved forcible entry, 16 percent were unlawful entry where no force was used, and the remaining 12 percent were attempts to forcibly enter.
- Residences were targets in 67 percent of the reported burglaries.
- Eighty-four percent of the nonresidential burglaries, where a time could be established, occurred at night.
- Stolen property value as a result of burglarly statewide, amounted to $77 million, for an average loss of $962.
- The average loss as a result of a residential burglary was $923, while nonresidential burglary loss was $1,041.

ARRESTS/CLEARANCES

- Burglary arrests decreased 14 percent in 1984 with 12,617 persons arrested.
- Adult arrests decreased 17 percent, while juvenile arrests decreased 10 percent.
- Males accounted for 95 percent and females 5 percent of the burglary arrests.
- Juveniles accounted for 48 percent of all burglary arrests.
- Sixty-two percent of burglary arrests were white, and 38 percent were black.
- Hispanics accounted for 12 percent of the arrests.
- Fourteen percent of the burglaries statewide were cleared and juveniles accounted for 33 percent of these clearances.

LARCENY-THEFT

Definition

The definition of larceny-theft, as provided under this program, is the taking of the property of another with intent to deprive him of ownership. All larcenies and thefts resulting from pocket-picking, purse-snatching, shoplifting, larcenies from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., are included here. Embezzlement, unlawful conversions, larceny by bailee, frauds or bad checks are not included.

VOLUME/RATE/TREND

- There were 201,807 larcenies reported in 1984, a 2 percent decrease compared to the 206,799 in 1983.
- Larceny accounted for 55 percent of the total Crime Index and 62 percent of all nonviolent crime.
- The larceny victimization rate decreased 3 percent to 27.0 victims for every 1,000 population in 1984.

ADDITIONAL ANALYSIS

- Thefts of motor vehicle parts and accessories and thefts from motor vehicles, collectively accounted for 36 percent of all larceny-thefts reported.
- Purse-snatchings decreased 15 percent in 1984 compared to 1983, and pocket-picking decreased 17 percent.

ARRESTS/CLEARANCES

- Larceny-theft arrests decreased 3 percent in 1984, with 42,236 persons arrested.
- Juvenile arrests decreased 4 percent and adult arrests decreased 2 percent in 1984.
- Males accounted for 72 percent and females 28 percent of the arrests.
- Fifty-six percent of all persons arrested for larceny were white, and 43 percent were black.
- Hispanics accounted for 10 percent of the arrests.
- Nineteen percent of the larcenies were cleared with juveniles accounting for 30 percent of the clearances.

MOTOR VEHICLE THEFT

Definition

In Uniform Crime Reporting, motor vehicle theft includes all thefts and attempted thefts of a motor vehicle. This includes the theft or attempted theft of a motor vehicle which is defined as a self-propelled vehicle that runs on the surface and not on rails. This definition excludes taking a motor vehicle for temporary use, such as family situation, or unauthorized use by others having lawful access to the vehicle. The motor vehicle theft category includes the subheadings of autos, trucks and buses, and other vehicles (motorcycles, mo-peds, etc.)

VOLUME/RATE/TREND

- There were 43,127 motor vehicle thefts reported in 1984, a 4 percent decrease compared to the 45,120 reported in 1983.
- Motor vehicle thefts accounted for 12 percent of the total Crime Index and 13 percent of the nonviolent crime.
- The motor vehicle theft rate of 5.8 victims per 1,000 population represents a 5 percent decrease compared to 1983.

DISTRIBUTION BY TYPE

Type	Number	Percent Distribution
Auto	38,228	89
Trucks and Buses	2,549	6
Other Vehicles	2,350	5

ADDITIONAL ANALYSIS

- Motor vehicles represented 53 percent of the total value of property stolen during 1984.
- Total value of stolen motor vehicles amounted to $189.5 million during the year.
- The average value of a stolen motor vehicle was $4,394.
- Vehicles valued at $77.5 million were not recovered during 1984.

ARRESTS/CLEARANCES

- A total of 2,339 persons were arrested for motor vehicle theft. This represents a 9 percent decrease compared to 1983.
- Juvenile arrests decreased 6 percent, while adult arrests decreased 11 percent.
- Males accounted for 93 percent, and females 7 percent of the motor vehicle theft arrests.
- Juveniles accounted for 49 percent of the motor vehicle arrests.
- Sixty-one percent of all persons arrested for motor vehicle theft were white and 39 percent were black.
- Hispanics accounted for 16 percent of the arrests.
- Six percent of the motor vehicle thefts were cleared in 1984, juveniles accounted for 32 percent of these clearances.

ARSON

Definition

Arson is defined by the New Jersey Uniform Crime Reporting program as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.

VOLUME/RATE/TREND

- There were 2,881 reportable arsons in 1984, which represents a 17 percent decrease compared to 3,462 in 1983.
- The arson rate decreased to 0.4 victims per 1,000 population.

ADDITIONAL ANALYSIS

- Sixty-five percent of the arsons were structures, with residences accounting for 23 percent.
- Mobile property including motor vehicles, accounted for 27 percent of the arsons in the state.
- Other property (timber, crops, etc.) accounted for 8 percent of the reported arsons.
- The total value of property damage due to arson, amounted to $26.0 million for an average dollar value loss of $9,016.
- The average residential loss was $9,876 while the average loss to industrial/commercial structures was $24,512.
- The average motor vehicle loss was $3,317.

ARRESTS/CLEARANCES

- Arson arrests numbered 770 in 1984, representing an increase of 6 percent when compared to 1983.
- Adult arrests increased 2 percent, while juvenile arrests increased 11 percent.
- Males accounted for 89 percent and females 11 percent of the arson arrests in 1984.
- Juveniles accounted for 46 percent of the arson arrests.
- Seventy-five percent of the persons arrested for arson were white, 25 percent were black.
- Hispanics accounted for 9 percent of the arrests.
- The arson clearance rate was 22 percent, and juveniles accounted for 34 percent of the clearances.

CRIME INDEX FOR POPULATION GROUPS—1984

The presentation of crime statistics by population groups was made for the purpose of projecting, for consideration, the relative crime experience of communities of varying populations. Although the individual municipalities within the various groups may be geographically separated, their inclusion into a specific group was predicted by the similarity in population with the other municipalities within the group. Municipalities within the same group may differ widely when all factors are considered, but they do share the common bond of population size. The grouping of communities in this manner allows recognition of variances in the crime volumes, rates and clearances between the established groups.

Set forth below are the established municipal groupings as used in this section:

POPULATION GROUPS	TOTAL CRIME INDEX	Murder	Rape	Robbery	Aggravated Assault	Burglary	Larceny-Theft	Motor Vehicle Theft
GROUP I								
4 Municipalities over 100,000 Population—790,106	67,052	159	831	8,248	5,449	14,623	23,808	13,934
Rate per 1,000 Inhabitants	84.9							
Percent Index Offenses Cleared	21.1							
GROUP II

*Percent change is less than one-half of one percent.
(1) Less than one-tenth of one percent.

- In 1984, there were 24,334 Index crimes reported in Rural municipalities, a 10 percent decrease compared to 1983.
- Seven percent of the state's Index crime occurred in Rural communities.
- Violent crime remained unchanged and accounted for 4 percent of the state's total violent crime.
- Nonviolent crime decreased 11 percent and represented 7 percent of the nonviolent crime in the state.
- The crime rate decreased 11 percent to 29.5 victims per 1,000 inhabitants.

SECTION VI

CRIME IN THE CITIES

CRIME IN THE CITIES

This section will deal with serious crimes reported in the large urban cities of the state. These cities represent nineteen percent of the population and historically account for one third of the reported Crime Index of the state.

This analysis involves the latest ten year period (1975-1984) and endeavors to further identify crime trends in these urban areas.

The cities included in this analysis have been categorized as urban municipalities (i.e., densely populated with extensive development) by the New Jersey Department of Community Affairs, Division of State and Regional Planning, Bureau of Statewide Planning.

The criteria used in the selection of these cities were (1) to be classified as urban character and (2) have a population of 50,000 or more inhabitants.

For further comparative analysis, the urban cities were subdivided into two distinct groupings.

Group number one consisted of the state's six largest urban centers with populations of 80,000 or over, and categorized as the "Major Urban."

The second group included the "Major Urban" and the additional urban communities with populations of 50,000 or more inhabitants, and referred to as the "Urban 15."

CRIME INDEX PERCENT 1975-

STATE AND URBAN CITIES	Year	POPULATION	Crime Index TOTAL	Violent Crime	Nonviolent Crime

CRIME IN THE CITIES
Summary

Distribution

- Six major urban centers—Camden, Newark, Jersey City, Trenton, Paterson and Elizabeth—collectively represent 11 percent of New Jersey's total population. These same urban centers, during the period 1975 through 1984 accounted for 23 percent of the state's total crime.
- The six centers from 1975 through 1984 accounted for 50 percent of all violent crime and 20 percent of the nonviolent crimes in the entire state.
- The 15 urban municipalities represent 19 percent of the state's total population.
- For the period 1975 through 1984 these 15 urban municipalities accounted for 32 percent of New Jersey's total Index, 60 percent of all violent crime, and 29 percent of the state's nonviolent crime.
- Nearly 7 out of every 10 robberies reported occurred in the "Urban 15" cities during this ten year period.

COMPARATIVE CRIME FOR STATE AND 50,000 POPULATION 1975-

STATE AND URBAN CITIES	Crime Index Total	Violent Crime Total	Nonviolent Crime Total
NEW JERSEY	4,087,455	373,946	3,713,509
URBAN CITIES—Over 80,000 Population (Major Urban)	942,413	186,081	756,332
Percent Distribution New Jersey State Total	23.1	49.8	20.4
URBAN CITIES—Over 50,000 Population (Urban 15)	1,309,866	222,455	1,087,411
Percent Distribution New Jersey State Total	32.0	59.5	29.3

Percent Change

- During the ten year period (1975-1984), the Crime Index in New Jersey has decreased 3 percent, while the "Urban 15" cities decreased 2 percent and the six major urban cities decreased 5 percent.
- Violent crime in the state increased 31 percent, the 15 urban cities increased 24 percent and the six major cities increased 16 percent.
- Nonviolent crime in the state decreased 6 percent, the "Urban 15" decreased 7 percent and the six major cities decreased 9 percent.

The accompanying table reflects the percent distribution of Major Urban and "Urban 15" crime within the state for the years 1975-1984.

INDEX DISTRIBUTION URBAN CITIES AND OVER 1984

52.3	41.9	58.6	40.7	24.3	15.0	36.7
2,707	10,060	126,575	83,113	368,712	501,641	217,058
60.0	51.1	68.4	50.5	33.3	23.2	48.6

STREET CRIME

There has never been a clear-cut definition for street crime within the criminal justice system. The nation's clearing house for the collection and dissemination of criminal statistics, the Federal Bureau of Investigation, has no criteria in the categorization of specific crimes to be designated or defined as "street crimes." More and more this media term has been confused with the violent crime group of murder, rape, robbery, and aggravated assault.

Although any particular crime can and does occur on the street, this analysis, because of reporting constraints within the Uniform Crime Reporting System, is limited to defining street crimes as those offenses which occur, or are most likely to occur, on streets, highways, parking lots, etc. These crimes include highway robbery, purse-snatching, theft from autos, theft of auto parts and accessories, theft of bicycles, and motor vehicle thefts. All are crimes against property and only one, highway robbery, falls in the violent crime group.

- During the ten year period 1975-1984 the "Urban 15" cities accounted for 35 percent of the street crimes in the state.
- Three out of every four highway robberies occurred in the "Urban 15" during the ten year period.
- Almost half of all motor vehicle thefts during the survey span, occurred in these 15 urban municipalities.
- Fifty-three percent of all purse-snatchings were perpetrated in the "Urban 15" cities.

The accompanying table reflects percent distribution of street crime for the "Urban 15" cities for the years 1975-1984.

	1984	2,199	25.8	1.7	24.0	-	14	25	108

NOTE: ALL CRIME RATES ARE BASED ON PERMANENT, YEAR-ROUND POPULATION. COMPARISONS OF CRIME RATES BETWEEN INDIVIDUAL MUNICIPALITIES SHOULD NOT BE MADE WITHOUT GIVING MAJOR CONSIDERATION TO THE VOLUME OF SEASONAL POPULATION, TRANSIENTS, TOURISTS AND LABOR FORCES.

*Crime rates were not computed for municipalities with population less than 100.

POLICE EMPLOYEE DATA

The Uniform Crime Reporting Program of New Jersey incorporates the collection of pertinent data relating to the police of the state. Information regarding police employee strength, and trends, are discussed in this section.

Individual listings of full-time state, county, university and college police departments are shown in tables within this section. Listings of municipal police departments will be found in Section VII.

The determination of police strength for any given area or municipality should be subject for serious consideration. Such consideration, however, should be based on the numerous factors which create the need for police services. For example, the increased need for police service in a municipality which has a highly mobile or seasonal population, differs from a municipality which has a relatively stable population. Some other factors, discussed elsewhere in this publication, relate to size, density of population, geographic location, character, and proximity to metropolitan areas. The tables and charts shown in this section should not be interpreted as recommended strength for any given municipality.

TOTAL POLICE EMPLOYEES

Total police employees are defined as the total number of full-time police officers and civilian police employees (clerks, dispatchers, mechanics, etc.) employed by all law enforcement agencies in the state.

- During 1984, there were 37,075 full time police employees in New Jersey. This represents a 2 percent increase compared to the 36,330 full time police employees in 1983.
- The number of full time police officers increased 2 percent, from 27,477 in 1983 to 28,153 in 1984.
- The number of full time civilian employees increased 1 percent, from 8,853 in 1983 to 8,922 in 1984.
- Seventy-six percent were sworn officers and the remaining 24 percent were civilian employees.

MUNICIPAL POLICE EMPLOYEES

This category consists of the number of police employees, including civilian personnel, employed full time by municipalities of the state.

- During 1984, there were 19,883 municipal police employees, an increase of 1 percent compared to the 19,765 in 1983.
- There were 2.7 municipal police employees for every 1,000 inhabitants of the state; no change since 1976.
- Monmouth County reported the largest numerical increase in municipal police employees, an increase of 2 percent (29 employees).
- Atlantic County recorded the highest police employee rate: 4.8 per 1,000 population; (this rate is computed on the static population and does not take in account the large influx of seasonal and recreational population).
- Hunterdon and Sussex Counties recorded the lowest police employee rate of 1.4 per 1,000 population.

OTHER POLICE (State Agencies)

In addition to the State Police, there were nine other state agencies reporting to the System. These agencies consist of: Bureau of Forest Fire Service, Office of Parks Law Enforcement. Department of Corrections, Department of Human Services, Division of Criminal Justice, Division of Fish and Game, Office of Weights and Measures, Palisades Interstate Park and N.J. Transit Police. No rates were computed due to the variations in the types of police service rendered, and their statewide jurisdictions.

- Together, these agencies reported a total of 7,471 full-time police employees; a 4 percent increase compared to the 7,201 police employees in 1983.
- There were 4,174 sworn police officers in 1984, an increase of 15 percent compared to the 3,645 in 1983.
- These agencies reported 3,297 civilian police employees in 1984, representing a 7 percent decrease compared to the 3,556 reported in 1983.
- Fifty-six percent were sworn personnel, while the remaining 44 percent were civilians.

MUNICIPAL CIVILIAN POLICE EMPLOYEES

The personnel of each department differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. Employing civilians in police departments to perform clerical duties is in line with the thinking of many police administrators who recommend the use of civilians in this capacity, thus freeing the sworn personnel for actual police related services.

- There were 2,932 municipal civilian police employees in 1984, an increase of 7 percent compared to the 2,747 in 1983.
- Fifteen percent of all municipal police employees were civilian.

MUNICIPAL POLICE OFFICERS

This includes the number of sworn police officers employed full-time by municipalities of the state. The police employee rate per 1,000 population presented here should not be construed as being recommended ratios. The determination of police strength for any municipality should be based on the numerous factors which create the need for police services. These factors, as crime, vary in type and degree from place to place. Some examples are: seasonal population, geographic location, density and composition of the population.

- There were 16,951 full-time municipal police officers in 1984; this represents no significant change compared to the 17,018 full-time municipal police officers in 1983.
- The number of full-time municipal police officers was calculated at 2.3 per 1,000 population; no change since 1974.
- Eighty-five percent of all municipal police employees were sworn officers.
- The largest numerical increase occurred in Burlington County; an increase of 22 municipal police officers, or 4 percent.
- The largest numerical decrease occurred in Essex County; a decrease of 18ε municipal police officers, or 8 percent.
- Atlantic County, with 3.7 police officers per 1,000 inhabitants, recorded the highest rate of full-time municipal police officers. (This rate is computed on the static population, and does not take into account the large influx of seasonal and recreational population.)
- Sussex County recorded the lowest rate of full-time municipal police officers with 1.1 police officers per 1,000 inhabitants.

COUNTY POLICE, SHERIFFS, AND PROSECUTORS

The functions of county law enforcement vary widely throughout the state. The operation of one sheriff's department may be limited exclusively to civil areas and the administration of the county jail, or they may be actively involved in criminal matters throughout the county.

County police departments are varied in their activities as well, in that some are responsible for enforcement throughout the county, while others may have as their primary mission the policing of county parklands. The responsibilities of county prosecutors' officers include criminal investigations, trial preparation, court presentation and special probes. Because of the difference in the types of police service rendered, rates for county law enforcement agencies are not presented here.

- County law enforcement agencies reported a total of 5,947 full-time police employees in 1984; an increase of 4 percent compared to the 5,718 in 1983.
- There were 4,447 full-time sworn police officers employed by county agencies in 1984. This represents an increase of 4 percent compared to the 4,288 in 1983.
- The county police agencies reported 1,500 civilian police employees in 1984; a 5 percent increase compared to the 1,430 in 1983.
- Seventy-five percent were sworn personnel while the remaining 25 percent were civilians.

STATE POLICE

The State Police total includes personnel from the Marine Police, Alcoholic Beverage Control Enforcement Bureau, and Capital Police. The breakdown for each bureau is depicted on the State Police Personnel chart.

The New Jersey State Police is empowered to provide all phases of all enforcement throughout the state. It also renders, upon request, police services to all the law enforcement agencies in the state. No rates are used due to the variations in the nature and extent of the police services performed by the State Police.

- The New Jersey State Police reported 3,233 full-time police employees; a decrease of 1 percent compared to the 3,273 in 1983.
- There were 2,293 State Police officers in 1984; a decrease of 1 percent compared to the 2,318 in 1983.
- The State Police reported 940 civilian employees in 1984; a decrease of 2 percent compared to the 955 in 1983.
- Seventy-one percent of the total State Police employees were sworn personnel, while the remaining 29 percent were civilians.

SECTION IX

LAW ENFORCEMENT OFFICERS KILLED AND ASSAULTED SUMMARY

POLICE OFFICERS KILLED AND ASSAULTED

The killing or assault of a police officer has a deleterious effect on society that reaches far beyond the overt act. Such occurrences constitute an immediate threat to the well-being of the community and serious breach of the internal security of the country. Today a young man who considers a career in law enforcement must also consider the very strong possibility of being killed or assaulted by a member of the very same society he is sworn to protect. This deplorable situation should be a subject of serious public concern, for in truth, an attack on a police officer is an attack on society. The violence directed against law enforcement officers acting in the line of duty is clearly demonstrated by the following information.

POLICE FELONIOUSLY KILLED

VOLUME/TREND

- In 1984, three N.J. police officers were feloniously killed while in the performance of their duty. All three murders were cleared.
- On May 7, 1984, a state trooper on the N.J. Turnpike stopped to assist a disabled van. After a confrontation with the two occupants, the trooper was shot and killed with a 9mm automatic handgun. After a brief high-speed chase, the assailtants died in a motor vehicle accident.
- On August 8, 1984, an Irvington patrolman was detailed to investigate a burglary in progress. Upon arrival he was shot and killed by one perpetrator who used a 12 gauge shotgun. The offenders were apprehended.
- On September 17, 1984, an Essex County patrolman made a "routine" motor vehicle stop. As he approached the vehicle, he was shot and killed with a 12 gauge shotgun. The assailant was apprehended.
- Since the inception of the Uniform Crime Reporting Program in January 1967, forty-one police officers have been feloniously killed in the line of duty.

Year	Police Officers Killed	Year	Police Officers Killed
1975	3	1980	2
1976	5	1981	3
1977	—	1982	—
1978	—	1983	—
1979	5	1984	3

ASSAULTS ON POLICE OFFICERS

Police assault statistics are important to the police administrator who attempts to identify the causative factors of this type of criminal activity. Many factors contribute to police assaults, and circumstances vary from place to place, it is therefore extremely difficult to identify specific reasons for these assaults. The following information illustrates the frequency of these events, and any attempt at analysis of these assaults should include consideration of the unique variables present in each jurisdiction. Due to the broad field of services performed by many state and county police agencies, no assault rates are computed for total police officers.

VOLUME/TREND

- There were 4,381 police officers assaulted in 1984, a 3 percent decrease compared to the 4,506 officers assaulted in 1983.

ADDITIONAL ANALYSIS

- Twenty-eight percent (1,221) of the officers assaulted, sustained injury.
- Personal weapons, such as hands, fists and feet were used in 89 percent of all police assaults.
- Thirty percent of police assaults occurred when officers responded to disturbance calls.
- Thirty percent of the assaults on police officers occurred during the four hour period of 8:00 p.m. to 12:00 midnight.

CLEARANCES

- The police of New Jersey were successful in clearing 99 percent of the assaults directed at them.

ASSAULTS ON MUNICIPAL POLICE OFFICERS

VOLUME/RATE/TREND

- There were 3,795 municipal police officers assaulted during 1984, a 7 percent decrease compared to the 4,071 assaulted in 1983.
- The assault rate, for every 100 municipal officers, was 22.4; a 6 percent decrease compared to 1983.

ADDITIONAL ANALYSIS

- Twenty-seven percent of the municipal officers assaulted, sustained injury.
- Personal weapons, such as hands, fists and feet were used in 89 percent of all municipal police assaults.
- Thirty-four percent of municipal police assaults occurred when officers responded to disturbance calls.
- Attempting Other Arrests accounted for 18 percent of municipal police assaults.

OTHER POLICE OFFICERS ASSAULTED

The following law enforcement agencies are dealt with separately and, are not included when computing municipal assault rates; the services performed by these agencies vary greatly from the functions of municipal police agencies.

VOLUME

- County law enforcement agencies reported 324 officers assaulted, with 96 sustaining physical injury.
- The New Jersey State Police reported 116 officers assaulted, with 31 sustaining injury.
- Other state agencies, with police powers, reported 131 officers assaulted and 64 sustaining injury.
- University and college police agencies reported 15 officers assaulted with 7 sustaining injury.

SECTION X

DOMESTIC VIOLENCE

INTRODUCTION

The violence within the American domicile has been recognized for decades by elements of government and society with little done to correct the problem. Only in the recent past has government made more than a cursory examination of atrocities occurring within the home. The Domestic Violence Act of 1982 provided the means to gain a meaningful insight into this issue.

The State of New Jerey, through its legislature, has sought to alleviate the root causes of violence in the home, as well as other relevant problems in this complex, changing, interdependent society. Our legislators agreed we can no longer wait for the resultant damages to become irreparable before examining them and implementing a remedy. Piecemeal reactions were deemed inadequate, and they enacted legislation to gather the information necessary to provide a clearer picture of this social disorder.

One of the goals in mind is the development of data identifying violence occurring behind closed doors. These revelations might be helpful in the eventual prevention or marked reduction of this horrible interaction. Hopefully this data can be utilized by society through our governing bodies to lessen the incidents of domestic violence. Through an enlightened society, the possibility exists of controlling this sad commentary on contemporary America.

As stated in this document, reported domestic violence acts increased 43 percent over 1983. This increase is largely attributed to the willingness of victims to come forward; the improved investigative and reporting procedures by the police; and the improved methods of processing domestic violence complaints through the courts. All of these improvements are the result of the combined efforts of many organizations and individuals, too numerous to mention. The message being communicated is that domestic violence will not be tolerated in our state!

DOMESTIC VIOLENCE STATISTICAL SURVEY

Highlights of the 1984 domestic violence statistics are listed below:

- There were 35,050 domestic violence offenses reported by the police in 1984, a 43% increase compared to the 24,477 reported in 1983.
- Assaults occurred in 68% (23,686) of the reported offenses in 1984.
- Arrests were made in 19% of the offenses reported.
- The most frequent days of domestic violence occurrences were Sunday (6,474) and Saturday (6,247).
- For the second consecutive year, the most frequent hours of occurrences were between 8:00 p.m. and midnight, when 30% of the offenses were reported.
- Children were involved or present during 56% of all domestic violence offenses occurring in 1984. Specifically: 13% were involved and 43% were present.
- Wives were the victims in 46% (16,025), and female friends were the victims in 29% (10,096) of the reported domestic violence offenses in 1984. Overall, females were victims in 85% (29,657) of all domestic violence offenses; the same percentage as in 1983.
- The number of domestic violence complaints that had prior court orders issued against the offender increased from 2,510 in 1983 to 4,213 in 1984.

ADDITIONAL DATA COLLECTION

Effective July 1, 1984 the Domestic Violence Offense Report was revised to collect additional data. The new data includes: "Involvement of Alcohol or Drugs," the "Elderly Victim" and "Homicide."

Six Month Period July-December, 1984

- There were 18,274 domestic violence offenses reported during this six month period.
- There were thirty-six domestic violence Homicides reported in the last six months of 1984.
- Alcohol and drugs were involved in 44% (8,004) of the reported offenses occurring in this six month period. Alcohol alone accounted for 40% (7,304) of the total domestic violence offenses reported.
- Persons over 60 years of age were the victims in 3% (584) of the reported domestic violence offenses during this period.

STATE OF NEW JERSEY
DOMESTIC VIOLENCE OFFENSE TOTALS
1983-1984

OFFENSE	1983	1984	Percent Change

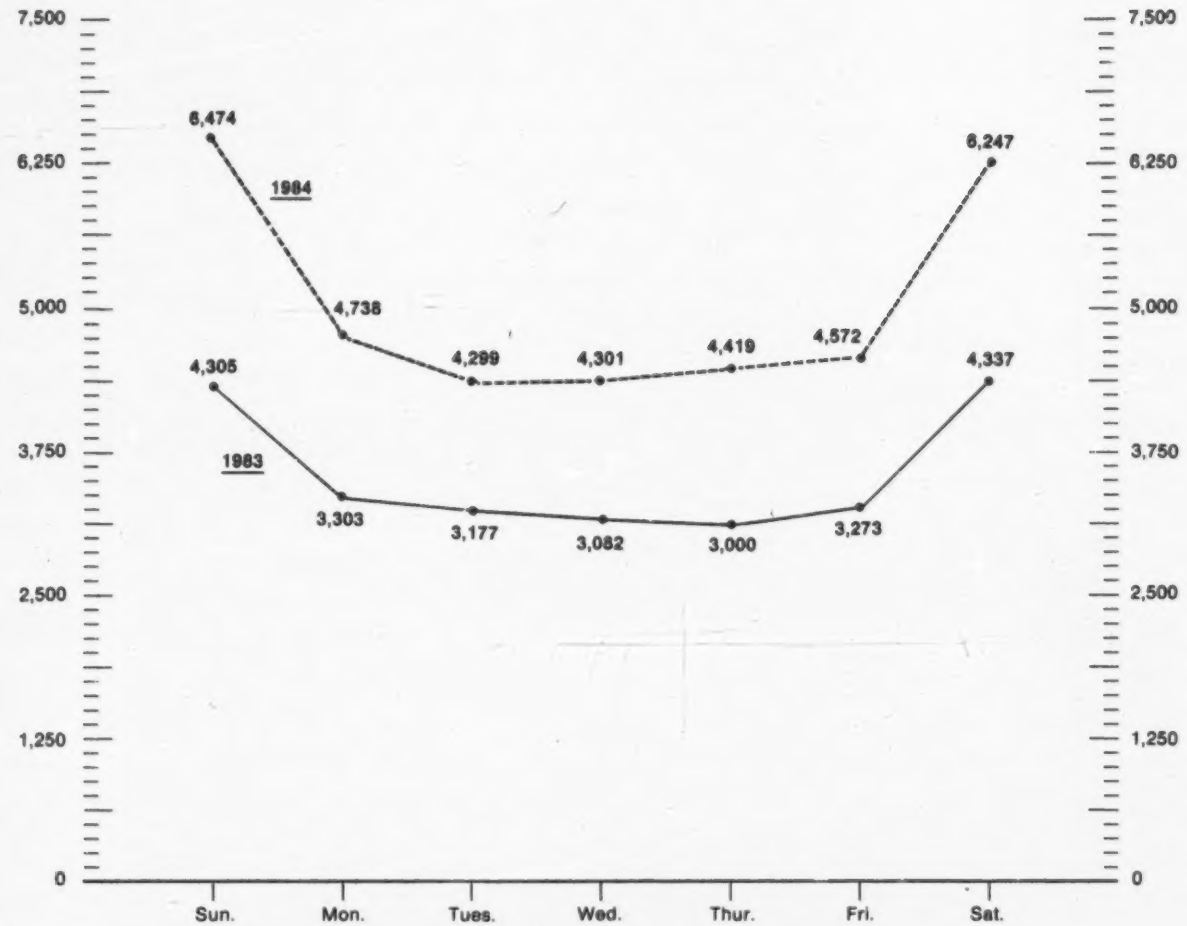
Harassment	9,621	27	1,021	11
Total	**35,050**	**100**	**6,721**	**19**

- Assaults occurred in 68% of the offenses in 1984.
- Harassment was involved in 27% of the offenses.
- Arrests were made in 19% (6,721) of the offenses reported; no change compared to 1983.

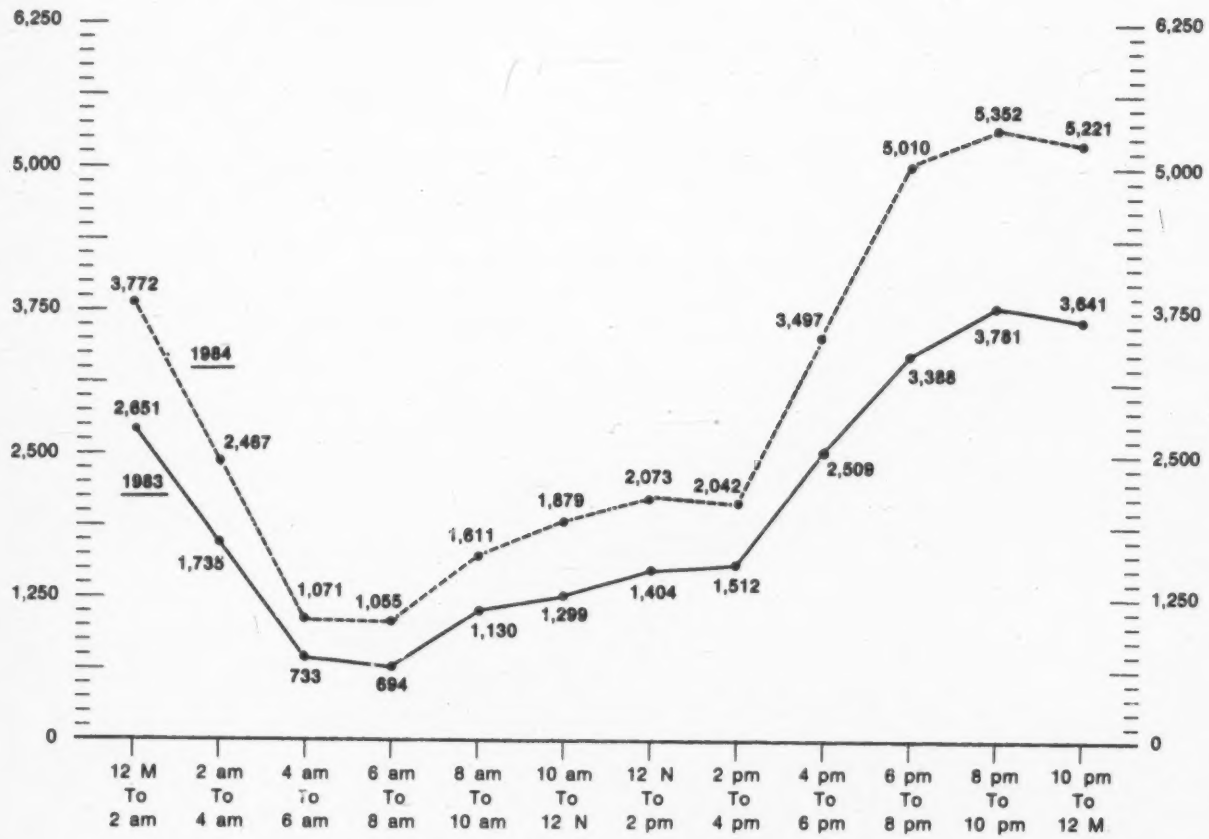
*Homicide data was not collected until the last six months of 1984.
**Less than 1/2 of one percent.

DOMESTIC VIOLENCE OFFENSES
BY DAY OF WEEK
1983/1984



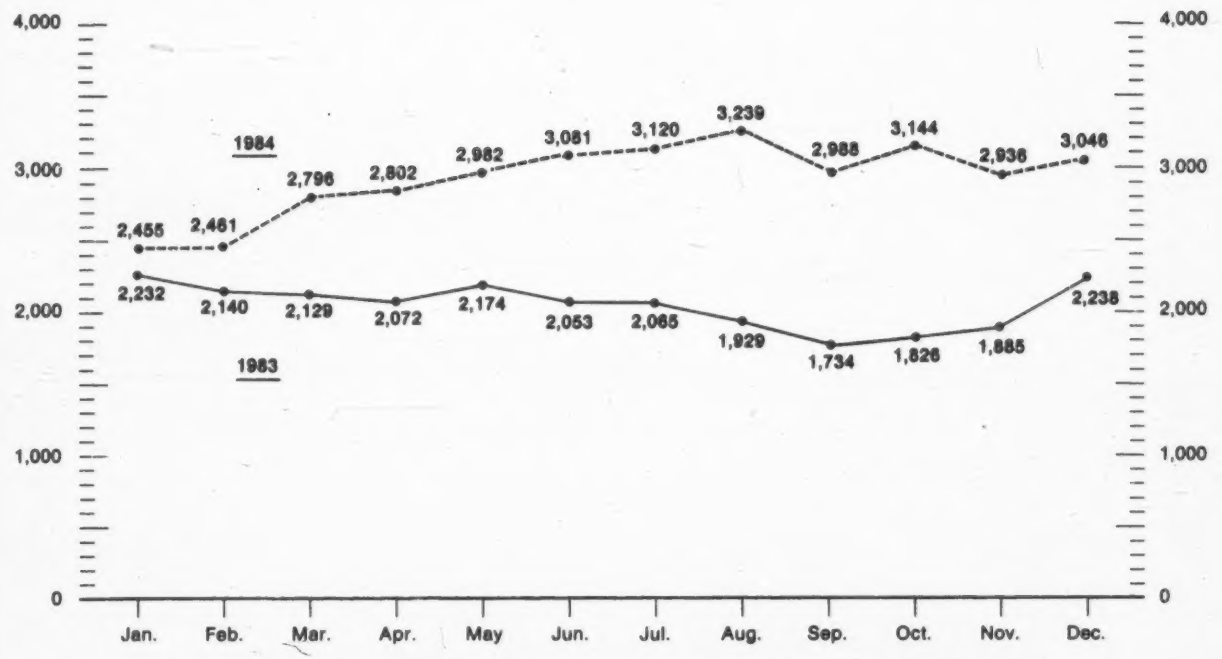
• The most frequent days of occurrence for Domestic Violence were Saturday and Sunday

DOMESTIC VIOLENCE OFFENSES
BY TIME OF DAY
1983/1984



- **Thirty percent of the reported Domestic Violence occurred between 8:00 p.m. and 12 Midnight**

DOMESTIC VIOLENCE OFFENSES
BY MONTH OF YEAR
1983/1984



- **The months with the highest number of reported Domestic Violence were August and October.**
- **The months with the lowest number of reported Domestic Violence were January and February.**

GLOSSARY OF TERMS

ADULT	For Uniform Crime Reporting purposes, a person aged 18 or over.
AMERICAN INDIAN or ALASKAN NATIVE	A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.
ARREST RATE	The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 1,000.
ASIAN or PACIFIC ISLANDER	A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes for example; China, India, Japan, Korea, the Philippine Islands, and Samoa.
BLACK	A person having origins in any of the black racial groups of Africa, characterized by dark skin pigmentation.
CLEARANCE	For Uniform Crime Reporting purposes, the solution to a particular crime, usually by the arrest of the offender.
CLEARED BY ARREST	For Uniform Crime Reporting purposes, an offense is cleared when the offender has been identified, sufficient evidence has been obtained to formally charge and the offender has been ordered to appear in court.
CRIME INDEX	The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a geographical area. The following crimes make up the index: Murder, rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft; these offenses are referred to as Index offenses.
CRIME RATE	The number of Index offenses reported for each unit of population per 1,000.
CRIMES AGAINST PERSONS	Consists of the following Index offenses: Murder, rape, and aggravated assault.
CRIMES AGAINST PROPERTY	Consists of the following Index offenses: Robbery, burglary, larceny-theft, and motor vehicle theft.
DAY	For Uniform Crime Reporting purposes, the hours from 6 a.m. to 6 p.m.
ETHNIC ORIGIN	Having or originating from racial, linguistic, or cultural ties with a specific group.
EXCEPTIONAL CLEARANCE	For Uniform Crime Reporting purposes, an offense is cleared in this manner when an offender has been identified, located and sufficient evidence to charge has been obtained but there is some reason beyond police control which prohibits the offender from being brought before the court.
HIERARCHY RULE	For Uniform Crime Reporting purposes, each crime or attempted crime is counted in only one offense category. If several offenses are committed, simply glance down the list of Part I offenses and stop at the first offense you recognize from the facts given; this offense is the correct classification for this criminal activity.
HISPANIC	A person of Mexican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

JUVENILE	For Unfiorm Crime Reporting purposes, a person under the age of 18.
JUVENILE CLEARANCE	Those crimes where the offenders are identified as juveniles.
NIGHT	For Uniform Crime Reporting purposes, the hours from 6 p.m. to 6 a.m.
NONVIOLENT CRIME	Consists of the following Index offenses: Burglary, larceny-theft, and motor vehicle theft.
VIOLENT CRIME	Consists of the following Index offenses: Murder, rape, robbery, and aggravated assault.
WHITE	A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

CALCULATIONS OF RATES AND TRENDS

1. **Crime Rate per 1,000 Inhabitants**—This represents the number of Index offenses per 1,000 inhabitants.
   For example: What is the crime rate for a municipality with 513 Index offenses (murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft), with a population of 8,280?
   513 (Index offenses) ÷ 8,280 (population) = .061957 x 1,000 = 62.0 (crime rate per 1,000 inhabitants)

2. **Crime Trend**—A crime trend shows the extent to which crime increased or decreased. This is done by comparing a period of the current year with the same period of a previous year.
   For example: A municipality experienced 264 Index offenses in 1980 and 513 Index offenses in 1981. What is the percent of increase?

   513 (1981 Index offenses)—264 (1980 Index offenses) = 249 (numerical increase)

   249 (numerical increase) ÷ 264 (previous year) = .943 x 100 = +94% (percent increase)

   Note: If there were more Index offenses in 1980 than in 1981, we would have a percentage decrease.

3. **Number of Police Personnel Per 1,000 Inhabitants**—This is calculated in the same manner as crime rate.
   For example: A municipality with a population of 8,280 and 28 police personnel. How many police officers are there per 1,000 population?
   28 (police personnel) ÷ 8,280 (population) = .00338 x 1,000 = 3.4 (police personnel per 1,000 inhabitants)

   Note: This formula can be applied to either total police personnel or just police officers per 1,000 inhabitants.

4. **Police Assaulted Rate**—This is calculated at a rate per 100 police officers.
   For example: A municipality with 25 officers had 5 of them assaulted during the month. What is the police assaulted rate?
   5 (police officers assaulted) ÷ 25 (police officers) = .2 x 100 = 20 (police assaulted per 100 police officers).

5. **Clearance Rate**—This refers to the percent of Index offenses cleared (solved), over a specified period of time.
   For example: A municipality with 513 Index offenses in 1981, cleared 95 of these offenses. What is the clearance rate?
   95 (Index offenses cleared) ÷ 513 (Index offenses) x 100 = 18.5 (percent cleared).
